I am a Web Designer and Developer with a passion for building user-centric applications. I attended Interactive Media Design program at Seneca College to strengthen my knowledge and skills to create content and application for varied mediums such as web, mobile, and magazines.

My objective is to further evolve as a front-end developer and learn from experts by working in a team setting for a company. Besides programming, I am also adept at UI/UX design, graphic design, 3D modelling and animation, game design, photography, sound and video editing.
